Your Mission is Healthier Lives.

Who We Are

Magellan Federal is a Virginia-based corporation and a wholly-owned subsidiary of Magellan Health, Inc. We are a family of 2,500+ dedicated to delivering personalized care solutions to those that serve.

Meet Our Parent Company

After Magellan Health purchased AFSC in 2016, we became part of its Magellan Healthcare Segment dedicated to providing better and more affordable care in the fast growing, highly complex, high-cost areas of healthcare. Our complete-person perspective drives value and enables us to deliver personalized care solutions for those we serve.

To empower federal employees and military personnel to live healthier, more productive lives

The individuals who serve in our military and other federal agencies are exceptional—in their abilities, their experiences, and their devotion to duty. And because they are exceptional, Magellan Federal is committed to offering exceptional solutions that support them. For us, this isn’t just business—it’s personal.

Our client’s mission is our mission. We hold our clients’ priorities as our sole focus and measure ourselves based upon the value we deliver.

We’ve proudly supported the needs of government and military families for decades. From PTSD treatment to skills training and financial planning, our combination of market expertise and clinical innovation improves the lives of our clients at their most difficult times. Our solutions across complex population management, behavioral health, specialty medical management, pharmacy, and human performance are developed using data-driven insights from large-scale research on both commercial and federal populations.

We are unified with your mission and connect seamlessly with your teams and culture. Your partner in delivering the most sensitive and complex behavioral health services.
